

# Norwalk

## CyrusOne Data Center

6 Norden Place

Norwalk, CT 06855

This facility features data center and work area recovery space to deliver world-class performance in a secure environment. Connecticut's largest data center, Norwalk is perfectly situated for companies from New York to Boston.

The Norwalk data center is conveniently located in Fairfield County, Connecticut, just outside New York City. The premier facility is built to provide high availability, high-power density and redundant connectivity options from multiple carriers. Truly diverse power is offered via three separate power feeds from two separate utility companies, ensuring business resilience.

## Overview

- 168,000 square feet facility
- 75,000 square feet data center space with 36" raised flooring
- 30,000 square feet work area recovery space featuring dedicated office suites configured per customer requirements
